

Computer Science Journey

Friday, May 22, 2026 7:15 PM

- On an average, each book took around 30 to 45 days for completion. Everyday time spent reading is roughly 4 hours on average.
- So an rough estimate on average is 120-180 studying hours per book.
- A very few books have taken 60 days to complete & some were completed within 15 days' time frame i.e. some books took more than 250+ hours, while some as little as 50 hours.
- Multiple months total rest.

Legends

-
- Read Full Book: Paper by Paper, Line by Line & in between Lines. Also including serious note taking.
 - Partial Reading more than 60%, no attempt for note taking.
 - Less than 60%.
 - Coursera Certifications.
-

Computer Science And Engineering

-
- **Discrete Mathematics**
 - ✓ Discrete mathematics with applications, By SUSANNA S. EPP.
 - ✓ Discrete Mathematical Structures, By KOLMAN, BUSBY, ROSS.
 - ✓ Discrete Mathematics and Its Applications, By KENNETH H. ROSEN.
 - **Theory of computation**
 - ✓ Introduction to theory of computation, By MICHEAL SISPSEER.
 - **Digital Logic & Computer organization and architecture**
 - ✓ The Hidden Language of Computer Hardware and Software, By CHARLES PETZOLD.
 - ✓ BUT HOW DO IT KNOW? The Basic Principles of Computers For Everyone, By JOHN CLARK SCOTT.
 - ✓ Logic and Computer Design Fundamentals, By MORRIS MANO.
 - ✓ Computer Organization and Design - The Hardware and Software Interface, By PATTERSON & HENNESSY.
 - **Data Structure and Algorithms**
 - ✓ Introduction to Algorithms, By THOMAS H. CORMEN.
 - **C Programming**
 - ✓ The C Programming Language, By DENNIS M. RITCHIE.
 - **Operating System**
 - ✓ Operating Systems in Three Easy Pieces, By REMZI ARPACI.
 - ✓ Operating System Concepts, By ABRAHM SILBERSCHATZ & GALVIN.
 - **Computer Networks**
 - ✓ Computer Networking A Top-Down Approach, By JIM KUROSE.
 - ✓ Computer Networks - A systems approach, By PETERSON & DAVIE.
 - ✓ Introduction to Networking, By Charles Severance.
 - **Database Systems**
 - ✓ Database System Concepts, By ABRAHM SILBERSCHATZ.
 - ✓ Fundamentals of Database Systems, By NAVATHE.
 - ✓ Database Management Systems, By RAGHU RAMAKRISHNAN.
 - **Compiler Design**
 - ✓ Engineering a Compiler, By KEITH D. COOPER.
-

Software Engineering

-
- **JAVA Programming**
 - ✓ Head First JAVA, By KATHY SIERRA & BERT BATES.
 - ✓ Java The Complete Reference, By Herbert Schildt.

- **Object oriented Design and Analysis**
 - ✓ Head First Object Oriented Design and Analysis, By Gary Pollice & David West.
 - **Design Patterns**
 - ✓ Head First Design Patterns, By Eric Freeman & Elisabeth Robson.
 - **Git and GitHub**
 - ✓ Head First Git, By Raju Gandhi.
 - **Frontend Development**
 - ✓ Head First HTML and CSS, By Eric Freeman & Elisabeth Robson.
 - **Backend Development**
 - ✓ Spring Start Here, By LAURENTIU SPILCA
-

Professional Certifications

- Java Programming and Software Engineering Fundamentals Specialization.
 - ✓ Duke University.
 - Object-Oriented Analysis & Design Specialization.
 - ✓ University of Colorado Boulder.
 - Parallel, Concurrent, and Distributed Programming in Java Specialization.
 - ✓ Rice University.
 - Data Structures and Algorithms Specialization
 - ✓ University of California San Diego
 - Open Source Software Development, Linux and Git Specialization
 - ✓ The Linux Foundation
 - IBM Java Developer Professional Certification
 - ✓ IBM
 - Learn Spring Boot in 100 Steps - Beginner to Expert
 - ✓ Packt
-

Gate Examination

- Gate CS 2025 - 1225 AIR.
- Gate CS 2026 - 707 AIR.
